

PORTABLE PUMPS AND WATER USE

S-211
24 Hours

COURSE DESCRIPTION

The Portable Pumps and Water Use course consists of three skill areas: supply, delivery, and application of water. Students will be required to demonstrate their knowledge of correct water use, basic hydraulics, and equipment care. The field exercise requires set up, operation, and maintenance of pump equipment. To receive credit for this course, students must have field work observed and approved, and take a closed book written final examination.

OBJECTIVES

- Select equipment required to maintain a flow of water as required by the incident.
- Install pumps, hose lays, and holding tanks to provide water for use during all phases of the incident.
- Perform required field maintenance on a portable pump.

TARGET GROUP

Individuals desiring to gain competency in the use of portable pumps and water.

TRAINEE PREREQUISITES

None

COURSE DATES

May 24-26, 2010

June 8-10, 2010
